Smart Exam™

Alpha Online Examination System (Smart Exam™) is a complete exam management solution which allows individuals and organisations to arrange, conduct and manage any objective examination via online. It is a web based multi-purpose online system that can be used in education, training, recruitment, marketing, and many other applications. Smart Exam™ can also be customised to suit your specific requirements.
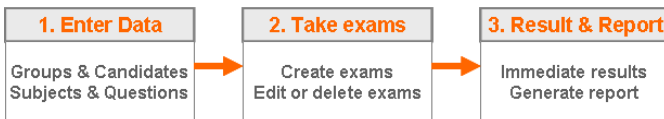

How It Works?

How It Works?

Smart Exam™ System is a robust, online testing platform (exam software) for administering, scoring, and reporting tests

1. The examiner enters the subjects and the questions (single question at a time or import the whole questions).
2. The examiner authorises students to take the exam.
3. The student login to answer the questions and submits the answers
4. Smart Exams™ evaluates and marks the answers and stores it in the database.
5. The examiner can get the results immediately in various formats.

1. Enter Data	2. Take exams	3. Result & Report
Groups & Candidates Subjects & Questions	Create exams Edit or delete exams	Immediate results Generate report

1. Candidates apply for exam

2. Examiner register candidates

3. Candidate takes the exam online

4. Examiner sends the result to the candidate
